

The rules for high-risk investments video transcript

The rules for high-risk investments

There are rules in place for the marketing of high-risk investments, like crypto.

You will see prominent warnings about the risk of losing your money.

And you won't see free gifts being offered to join or 'refer a friend' bonuses.

And if it's your first time investing, you'll be asked to demonstrate that you understand the risks of your investment.

If these things don't happen it means the company offering your investment isn't following our rules, and if you aren't warned about the risks of losing your money, it could even be illegal.

Remember, you could lose all of the money you invest.

Make sure you understand the risks and know who you're dealing with.

Don't get played. InvestSmart with the FCA.
